

Bethany Custom Home

We recently had the opportunity to bring to life an extraordinary Craftsman-style custom home for our clients, blending timeless design with luxurious finishes. With over 4,500 square feet of finished living space, including a beautifully finished basement, this project showcases the highest level of craftsmanship, attention to detail, and quality materials.

Project Overview:

From the moment our clients shared their vision with us, we knew this custom home would be something special. The goal was to create a spacious, elegant, and functional family home that also had a classic, enduring appeal. By incorporating Craftsman-style architecture, we designed a home that balances sophistication with comfort, making it the perfect space for both relaxation and entertainment.

Interior Features:

Engineered Wire-Brushed White Oak Flooring: Throughout the entire home, we installed premium engineered wire-brushed white oak flooring, which gives the space a soft, natural feel while adding texture and character. The light, airy tones of the oak create a timeless and welcoming atmosphere that flows seamlessly from room to room.

Luxurious Carrera Marble Bathrooms:

Every bathroom in the home features stunning Carrara marble finishes, elevating the space with their timeless beauty and elegance. From the sleek countertops to the intricate tile work, the marble adds an element of luxury to the home's most intimate spaces.

Floor-to-Ceiling Windows and Doors:

The design of the home focuses on creating a bright and airy environment, with large floor-to-ceiling windows and doors that not only flood the interior with natural light but also offer breathtaking views of the surrounding landscape. These expansive windows open up the home, connecting the interior to the outdoors and providing a sense of openness and tranquility.

Exterior Features:

Brampton Brick Full Bed Stone: For the exterior, we chose Brampton Brick full bed stone to give the home a sense of permanence and timeless appeal. This beautiful stonework is used throughout the façade, creating a rich, textured look that complements the natural surroundings. **Hardie Board Lap Siding:** The home's exterior is further enhanced with Hardie Board lap siding, which not only provides durability and low maintenance but also adds a classic aesthetic that perfectly suits the Craftsman style. The combination of the stone and lap siding creates a balanced, elegant look that's both sophisticated and welcoming.

Client Experience:

Our clients were thrilled with the finished result—a home that perfectly balances functionality, elegance, and the warmth of Craftsman-style craftsmanship. From the expansive living spaces to the luxurious bathrooms and stunning custom finishes, every detail of this home was thoughtfully designed to meet their needs while reflecting their personal style. As their trusted custom home builder, we pride ourselves on our ability to bring our clients' visions to life, ensuring that each home we build is as unique as the families who live in them. This project is a perfect example of how thoughtful design, premium materials, and expert craftsmanship can come together to create a home that is both a functional masterpiece and a beautiful retreat.
